On May 8, 2023, SB 264, known as Interests of Foreign Countries, was signed into law. The law will become effective on July 1, 2023. The law limits and regulates the sale, purchase, and ownership of certain properties in the State of Florida by Foreign Principals, from particular countries of concern, including The People's Republic of China ("PRC"), the Russian Federation, the Islamic Republic of Iran, the Democratic People's Republic of Korea, the Republic of Cuba, the Venezuelan regime of Nicolás Maduro, or the Syrian Arab Republic (collectively, the "Countries of Concern").

"Foreign Principals" is defined to include (i) government and party officials from such country, (ii) a company formed in such country or having a principal place of business in such country, and its subsidiaries, (iii) any person domiciled in such country that is not a United State citizen or lawful permanent resident of the United States and (iv) any of the foregoing Foreign Principals that has a controlling interest in a corporate entity formed for the purpose of owning real property in the State of Florida.
