BERGER SINGERMAN
FLORIDA'S BUSINESS LAW FIRM

MARITAL LAW

When a decision is made to end a marriage, our work begins. As effective, strong advocates, our lawyers represent clients throughout all stages of a complex dissolution of marriage, including issues involving alimony, child custody/timesharing, high net worth equitable distribution, and child support. Our attorneys are also experienced in handling post-final judgment actions, when there is a need for modification and/or enforcement. We are sensitive to the emotional components that inevitably pervade marital law matters, and as such we serve not only as attorneys, but as counselors to provide the most effective and efficient path to resolution for our clients.

Our firm's history as Florida's business law firm has also allowed us to provide skilled representation and protection for business entities, whether closely held or otherwise, that are caught up in the whirlwind of marital law litigation. With our background in commercial, corporate, and tax matters, we understand the intricacies of business valuation, and we are exceptionally attuned to our clients' needs, and routinely utilize forensic accountants and other experts to assist us in efficiently advancing the interests of our clients, achieving the clearest strategy of success.
