Justin B. Elegant is an accomplished civil trial and appellate lawyer. He is a former Co-Manager of the firm’s Dispute Resolution Team.

For more than 25 years, Justin has practiced complex civil litigation in Florida's state and federal courts. In addition, he has successfully litigated multifaceted cases both nationally and internationally. Justin has consistently prevailed on behalf of individual and corporate clients by prosecuting and defending statutory and common law business claims in state and federal courts as well as before arbitration tribunals. His thorough preparation and attention to detail have steadily brought favorable results for the firm's clients pretrial with lucrative settlements, at trial and on appeal. Such achievements include: securing a $36 million settlement in litigation between publicly traded insurance companies; successfully defending a global IT services provider in a “bet the company” dispute with over $100 million at stake; winning at bench trial and on appeal in an intricate Star Island boundary conflict in Miami Beach; and obtaining a $7 million dollar FINRA arbitration award for an NBA hall of fame player in Texas.

Justin also has extensive experience handling domestic and foreign judgment enforcement cases and related cross-border matters. Sample results include: securing a $15 million dollar post-judgment settlement against a Colombian entity on behalf of a multibillion-dollar U.S. pharmaceutical company; domesticating and collecting on a New York judgment for a global Swiss Bank by exposing fraudulent transfers and related unlawful conduct; and receiving expedited discovery, despite strong opposition, in federal court for a BVI corporation under 28 U.S.C. § 1782 in high-stakes litigation involving a Guatemalan oil business pending in the United Kingdom.

Proudly, Justin is also very committed to performing charitable work in the community. He has founded, and for decades supported, organizations that have provided mentoring and educational opportunities for students and children. Justin is also an honored fundraiser and volunteer at The Caring Place (once the Miami Rescue Mission) to combat homelessness. He lives on Miami Beach with his wife and two sons.

Our clients faced joint and several liability based on federal and state RICO, fraud and multiple common law claims.
- Favorably defended a global digital business and IT services provider in “bet the company” federal court litigation where a Florida insurance company sought more than $90 million in damages and associated injunctive relief.

- Secured significant settlement for the owner and developer of a roughly $50 million LEED Platinum landmark office center in Coral Gables, Florida in multifaceted construction delay and defect litigation involving competing claims by more than fifty parties.
- Favorably settled former chief financial officer's action for indemnification and advancement of legal fees and expenses (arising from multiple proceedings) against a publicly traded company.
- Successfully defended a Florida corporate property owner against a multimillion-dollar lawsuit brought under the Telephone Consumer Protection Act, 47 U.S.C. § 227 et seq.—a strict liability statute—and related state law statutory and tort claims. Despite more than 5000 unwanted and documented telephone calls to a cellular phone, coupled with extensive indemnification claims from co-defendants, the matter was confidentially settled for nominal damages.
- Successfully represented corporations and individual plaintiffs, at jury trial and on appeal, in an action arising out of breach of joint venture agreement for a condominium conversion of a Miami Beach Art Deco hotel.
- Completely defended a multimillion-dollar claim in arbitration against an international hotel corporation—by obtaining a decision for the defense with an award of attorney's fees and costs—brought pursuant to St. Lucian law involving a resort in the Caribbean.
- Successfully represented three companies, including a publicly traded entity, at jury trial and on appeal, in an action involving several legal and equitable claims. Claimant unsuccessfully sought millions of dollars in damages, including punitive damages, for the alleged denial of valuable tag along rights from the sale of proceeds of an asset purchase agreement.
- Obtained dismissal with prejudice—following a mistrial in a civil fraud case seeking several million dollars—due to witness tampering in the courtroom during a sidebar conference on the third day of trial. In the first reported incident of its type in the United States, Plaintiff's CEO and COO were texting each other about the COO's testimony while he was on the witness stand. The trial court ruled this was a fraud on the court.
- Defended several parties in a four-count equitable action brought by an instrumentality of a foreign government which sought to preclude these and other defendants—which it asserted were all guilty of defrauding a foreign bank out of approximately $92 million—from fraudulently transferring assets in Miami-Dade County, Florida.
- Achieved confidential settlement for domestic and offshore marine shipping industry defendants in a federal court action for willful and malicious misappropriation of trade secrets and related information.

Judgment Enforcement/Cross-Border

This was an action to collect $18.5 million in attorney fees and costs award under the Florida Deceptive and Unfair Trade Practices Act against a former joint venture partner based in Colombia.
- Successfully represented judgment creditors in tri-state collection action by securing roughly a $200 million settlement with a global equipment retailer and manufacturer.

- Domesticated and enforcing a $75 million federal judgment in Florida for a publicly traded company and its affiliated creditors.
- Prevailed in a matter of first impression in the United States under Chapter 15 of the U.S. Bankruptcy Code, defending non-debtors—a financial entity and its co-founder—against a Foreign Representative's attempt to enforce a non-final (ex parte) Brazilian court prejudgment asset freeze order to preserve the foreign debtor's ability to collect damages of roughly $29 million (from each non-debtor) arising from unadjudicated claims in Brazil.

- Received expedited discovery, despite strong opposition, in the Southern District of Florida for a British Virgin Islands corporation under 28 U.S.C. § 1782 in high-stakes commercial action involving its oil business in Guatemala. The underlying claims were pending in the United Kingdom before the High Court of Justice.
- Successfully represented an international bank in collecting on a domesticated New York Judgment by exposing several fraudulent transfers and similar dishonesty which forced the debtor into a partial settlement with the balance of the bank's debt forever non-dischargeable.

- Won bench trial in a complicated boundary dispute between neighboring residential landowners on Sunset Island No. 3 on Miami Beach, Florida. We succeeded by utilizing evidence of an agreed boundary set by the Original Surveyor in 1991, coupled with significant corroborating evidence of use and occupation covering more than 20 years.
