BERGER SINGERMAN
FLORIDA'S BUSINESS LAW FIRM

PATENT PROSECUTION

Berger Singerman's patent prosecution group is highly experienced and effective in protecting our clients' useful inventions. We represent local, national, and international businesses in connection with preparing, prosecuting and maintaining patent applications and issued patents. We take a business-minded approach to patent portfolio management, which includes counseling on domestic and foreign patent prosecution matters. We maintain an expansive international network to provide clients with global patent representation. We also provide patentability, infringement, validity, and freedom-to-operate opinions which are critical to assessing viability and risk associated with inventions. Our technical expertise includes mechanical systems, electro-mechanical systems, software, designs, nutritional products, and business methods.
